Claims 1-7, 9-17 and 19 are presented for examination.

The remarks filed on November 7, 2004 have been received and entered.

Claims 1-7 and 9-17 are rejected under 35 U.S.C. 102 (b) as being anticipated by Lindstrom et al. for the reasons set forth on page 2 of the office action of July 14, 2004.

Claim 19 is rejected under 35 U.S.C. 103 as being unpatentable over Lindstrom et al. and Lang et al. for the reasons set forth on pages 2 and 3 of the office action of July 14, 2004.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the presented claimed compositions do not include chondroitin sulfate or 2-mercaptoethanol. However, applicant has failed to demonstrate that the addition of such agents to the claimed composition would materially alter the effectiveness of the claimed composition. There is no evidence of record to show that the claimed composition would function differently if 2-mercaptoethanol or chondroiton sulfate was added to such composition. Thus, for the above reasons and for the reasons discussed previously the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1614

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
